

Endolyne Technology Services

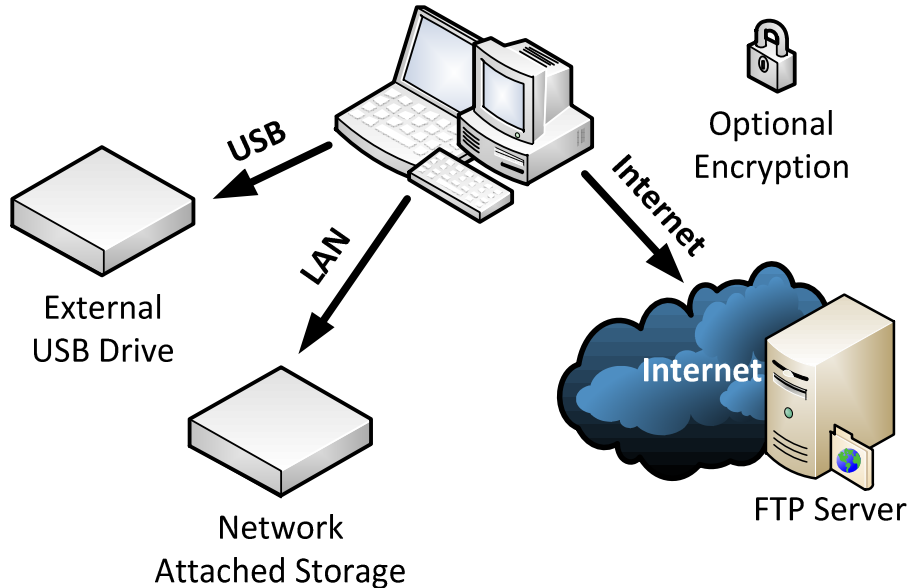

\$99

+ tax. Includes software and labor. Does not include cost for external drive, if required. This price is subject to change.

Basic PC Backup

Service Includes:

- ✓ Installation of backup software
- ✓ Expert configuration & verification to ensure that all of your data and e-mail get backed up
- ✓ Setup of automated scheduling for "hands off" operation
- ✓ Connection to your existing backup drive, or provision of a new drive (cost of new drive not included)
- ✓ Verification of data restore

This service is based on the award-winning SyncBack SE backup software and includes one software license.

Backup all of your data, documents, e-mail, music, photos, etc. to an external hard drive that is connected via USB or located on your network. (Note: *This does not backup your operating system or programs; in the event of a total hard disk or system failure you will need your original install disks and license keys to reinstall them.*)

Automatic scheduling will keep your backups running without any further action required on your part.

Data can be recovered to the original PC or to a new one. We will verify that the restoration of your data will work when the time comes.

No Interruptions

Keep working in MS Outlook, Word, etc.; your open files will be backed up

Keep Your Performance

Throttling allows the backup software to use less resources so your applications keep running smoothly

Automated Operation

With automatic scheduling you don't have to remember to backup your data

Stay Protected

Powerful AES encryption is available to keep your backup files secure

Restore Easily

Your files can be easily restored to any computer

Roll Back

Optional file versioning allows you to "roll back" to an earlier version of a file
