

Endolyne Technology Services

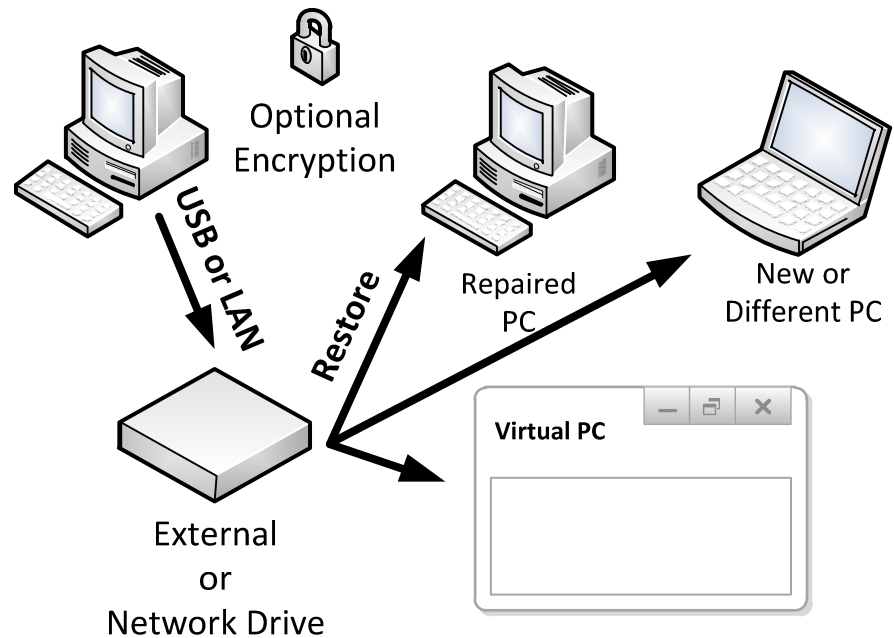

\$149

+ tax. Includes software and labor. Does not include cost for external drive, if required. This price is subject to change.

Comprehensive PC Backup

Service Includes:

- ✓ Installation of backup software
- ✓ Expert configuration & verification to ensure that your entire system will be backed up
- ✓ Setup of automated scheduling for "hands off" operation
- ✓ Connection to your existing backup drive, or provision of a new drive (cost of new drive not included)
- ✓ Verification of data restore

This service is based on the award-winning ShadowProtect Desktop backup software and includes one software license.

Backup your entire system; operating system, programs and data, to an external hard drive that is connected via USB or located on your local network.

Automatic scheduling will keep your backups running without any further action required on your part.

There are many powerful restore options to get you back to work. Your system can be restored to the original PC, to a new one, or even to a virtual PC on a different physical machine.

We will verify that a system restoration will succeed.

No Interruptions	Keep working in MS Outlook, Word, etc.; your open files will be backed up
Full System Backup	Original installation disks and keys for your OS and programs are not required to restore your system
Automated Operation	With automatic scheduling you don't have to remember to backup your data
Stay Protected	Powerful RC4 & AES encryption are available to keep your backup files secure
Powerful Restore Options	Your system can be restored to the same PC, a new one, or even as a virtual PC on a different physical machine
Roll Back	Optional file versioning allows you to "roll back" to an earlier version of a file
